Gen. A. J. Gross was in the city Monday and received his certificate of election from the examining Board. The official count gave him a majority of 61 in the district. It was reported here a few days ago that Mr. Blanford would contest Gen. Gross' election because the officers that held the election in the Big Spring precinct in Meade county were all Democrats Mr. Blanford has been beard to say later, however, that he would make no contest.

One of the most disgraceful things that has happened here for sometime ocurred early Sunday night. Gilmore & Hicks, proprietors of the Flying Dutchman, when they went down to their tent Sunday night after supper found that some one had been there and punched the eves out of their wooden horses attached to the machine. To say that the gentlemen were considerable worked up over the matter is putting it mildly. They had uniformily treated everybody here with respect, and that anyone would thus willfully mutilate their property in their absence, was a great surprise to them. They regard the loss as consider: able as it will cost a good deal to make it good. The young men who were guilty of the act were run down and will

be handled by law. The Republicans met in the Courthouse Saturday night to ratify over the result of the recent election. The crowd was small, but they were very enthusiastic over their late victory. Hon. Jonas Wilson, the Representative, had been notified of the meeting and was present from Cloverport. The Hon. Charles Blanford had been notified to be on hand, but did not appear. Mr. Andrew Driskell, the new Superintendent elect of school was also present. Mr. Frank Haswell, chairman of the County Republican Committee called the house to order, and stated briefly the program for the evening. He said they had come together to have a sort of a love feast as it were. He said that for many years their party had known nothing but defeat for the offices in this county, and now as they had gained a decided victory he thought every Republican should rejoice. At this every body broke out in evell. He said he thought it was a good omen for another victory next year, and also for the party as a national body in '96. Hon. Jonas Wilson was the next say anything more than to thank the people, especially Republicans, for the very liberal support given him in the late election. is now found that this objection may be

overcome at a small expense, by carry-

ing a steam pipe down through each

room and putting opposite each opening

in the flue, through which the air enters

the room, an outlet with valves for regu-

lating the flow of the steam. In this

way the exhaust steam from the engine

which drives the blower flows into the
